

Linley Street Boat Ramp and Dock Under Repair

The Linley Street boat ramp and parking area are closed due to the current renovation project. Construction started May 6, 2013 and weather and construction progress permitting the ramp should reopen by the end of July. Duncan Seawall, the Town's contractor for this work, has set the construction perimeter for the work site and equipment. Residents and visitors to the area are asked to use caution when traveling through the intersection of Linley Street and Lois Avenue. The nearest available public boat ramps are located north of Longboat Key on Anna Maria Island at Coquina Beach.
