

Compliments on the Town's new "Fiscal Transparency" feature:

Is this using a software that was purchased or did your team develop it? It looks GREAT!! I am wondering what was all involved & if it may be something that Ocala could do. Maybe it depends on what software you use for financial information? We currently use EDEN (Tyler product) but will be looking next year.

Please let me know at your convenience.

Thanks & again – it looks GREAT!!

Good Morning Kathi,

Just read about your latest accomplishment "Fiscal Transparency". Congratulations to you and everyone involved in the project. Nice to know that you still think outside the box!

Great job as usual!

Trish,

This is to congratulate all those involved in producing the new fiscal transparency system. Our commitment to fiscal transparency is a big step for a small community, one that should serve as an example to others. It will inform property owners of the evolution of the town finances in near real time, especially as the time for budget preparation approaches when, as always, there will be competing demands for our tax dollars. I have to say that if Longboat Key were a member of the International Monetary Fund, it would be awarded a BIG Gold Star.

Armando

-Armando Linde

Trish -- Absolutely this deserves a gold star!

Pat Zunz

Ken: Fabulous fiscal transparency at Town of Longboat Key website! Thanks for sharing.....Peggy

-Peggy Lyon of City of Vero Beach

Jack,

FYI. Unsure if interested in "fiscal transparency" (or not)

I found to be very informative.

Angelo Furgiuele

Hi Ms. Smith,

I read about your new Fiscal Transparency website, and it is FAB! Could you please provide the information on how it was done? Did you use a developer? We would love to implement something similar.

Any information is greatly appreciated. And, congratulations on a stunning website!
