Subject: Inspection Project

Dave:

I wanted to let you know that I had a good discussion with Matt over the inspection program that was designed by Kathi, Sandi, and Christine. Matt had nothing but great things to say about Kathi and Sandi! He has received almost all the information he needs to complete his project and has found that productivity has increased tremendously because of this program. He shared that he has worked in Sarasota County for the past 15 years and has not seen as much pride in a program than what Kathi and Sandi have showed. I know what we have and I know it is good but it is because of the people that we have such a great program. It was great to hear someone else express what I have experienced and I truly consider myself VERY lucky to be a small part of the success. Thanks to Kathi and Sandi and ALL the time, headaches, sweat and frustration that has gone into this project....it has and will continue to pay off!

Dave, I want to thank you for your support. I know that we have made safer buildings for everyone and I also know that we have prevented fires because of this program. Our philosophy of Prevention over Suppression goes a long way!

Thanks to everyone involved!
