Ms. Kathi Pletzke  
Town of Longboat Key  
501 Bay Isles Road  
Longboat Key, FL 34228

Dear Kathi,

Congratulations!

The FLGISA Technology Achievement Award program is to be an award presented by the FLGISA President, with the advice and consent of the Board of Directors, at the Annual Meeting during the last year of the President's tenure in office. The purpose of this award is to recognize both leadership (technical and/or organizational) and innovation in a community within the FLGISA membership.

I want to congratulate you on winning the *2012 FLGISA Technology Achievement Award in Development: Best Application Serving a Public Organization's Business Needs*.

Your project, *FIRE LogBook, Tactical Survey and Inspection System*, demonstrates this category. The Best Application Serving a Public Organization's Business Needs is presented to jurisdictions that have designed, developed and deployed new applications or improved existing systems that assist the organization in handling its day-to-day work.

We thank you for your commitment to excellence.

Melinda Miller  
FLGISA President
