

## MEMORANDUM

Date: August 15, 2013

TO: Dave Bullock, Town Manager  
FROM: Juan Florensa, Public Works Director  
SUBJECT: Proposed Beach Funding Resolution 2013-27

---

Every year the Town adopts a beach funding resolution as part of the Florida Department of Environmental Protection (FDEP) Local Government Funding Request (LGFR). These resolutions position the Town to receive reimbursement of a portion of the funds spent on our wide-ranging beach management program.

This year staff recommends that three resolutions be passed.

**Resolution 2013-27 is our general resolution for cost sharing funds for work the Town may undertake in the future relative to design, permitting and construction of sand placement projects as well as other structures. Typically these costs are shared with the State on a 22.79% basis.**

Resolution 2013-28 is the result of the joint efforts between Manatee County and Longboat Key regarding Longboat Pass Inlet and its affect on the adjacent beaches. This resolution, a similar resolution will be passed by Manatee County, will be submitted to FDEP for the joint funding and cost shares of the dredging of Longboat Pass. Manatee County and Longboat Key will share the cost of the dredging of the Pass on a 50-50 basis minus the potential cost share from FDEP.

Resolution 2013-29 is recommended to be submitted to FDEP for the sole purpose of funding any work that the Town of Longboat Key may have to perform relative to the Longboat Pass Inlet. Inlet reimbursement funding percentages are typically higher than the general beach funding reimbursement. It is possible that if funded any work related to the Inlet undertaken solely by Longboat Key could be reimbursement on a 50-75% cost-share basis. The passage of these three resolutions gives the Town the most flexibility to submit and optimize the reimbursement of future projects.

Please let me know if you have any questions concerning these resolutions.
