Terms Used in this Document

Business Day Any day that (1) both the Federal Reserve Bank of New York and the Fund's Custodian are open for business and (2) the primary trading markets for the Fund's portfolio instruments are open and the Fund's management believes there is an adequate market to meet purchase and redemption requests. Additionally, the Fund is authorized not to open for trading on a day that is otherwise a Business Day if the Securities Industry and Financial Markets Association ("SIFMA") recommends that the primary trading markets close. The Fund may also close early on a Business Day if the SIFMA recommends that primary trading markets close early. In light of anticipated limited availability for money market securities and fixed income settlement capacity limitations, the Fund will not be open for business on Good Friday even if the primary trading markets are open.

Custodian Wells Fargo Bank, N.A. or the designated bank, agent, or trust company, responsible for safeguarding financial assets of FEITF.

Declaration The Declaration of Trust through which the Fund was created.

Depository Bank Wells Fargo Bank, N.A.

EON - Easy Online Network. The Investment Adviser's web-based information and transaction service.

FADSS Florida Association of District School Superintendents, Inc., a Sponsor of FEITF.

FEITF The Florida Education Investment Trust Fund.

FSBA Florida School Boards Association, Inc., a Sponsor of FEITF.

Fund The FEITF Portfolio and the FEITF Term Portfolio (FEITF Term Series).

Investment Adviser PFM Asset Management LLC, FEITF's investment adviser, administrator and transfer agent.

NAV Net asset value.

New Investor Application An application to become a new investor in FEITF.

NRSRO Nationally recognized statistical rating organization.

Participant A shareholder of one or more Portfolios.

PFM Public Financial Management, Inc.

PFMAM PFM Asset Management LLC, the Fund's Investment Adviser.

Portfolios The FEITF Portfolio and the FEITF Term Portfolio. "Portfolio" refers to each specific section in which it is used to describe the features of that particular Portfolio.

Sponsors Florida School Boards Association, Inc. and the Florida Association of District School Superintendents, Inc.

Trustees Members of the FEITF Board of Trustees.

Part 1: Portfolio Summaries and Investment Program Offerings

FEITF Portfolio

Investment Objective

To earn the highest income consistent with preserving principal and maintaining liquidity, and to maintain a stable \$1.00 net asset value ("NAV").

Principal Investment Strategies

The FEITF Portfolio (the "Portfolio") invests exclusively in the following high-quality money market instruments:

- Obligations of the U.S. Government and its Agencies and Instrumentalities
- Repurchase agreements involving obligations of the U.S. Government and its Agencies and Instrumentalities
- Commercial Paper
- Corporate Notes and Bonds
- Obligations of Banks
- Floating-Rate and Variable-Rate Obligations
- Municipal Obligations
- Money Market Mutual Funds
- Any investments authorized under Section 218.415(16) of Florida State Statutes.

For a more complete description of permitted investments and investment restrictions for the Portfolio, see the "Permitted Investments" section in Part 2 of this document.

The Investment Adviser may adjust exposure to interest rate risk, typically seeking to protect against possible rises in interest rates and to preserve yield when interest rates appear likely to fall.

The Portfolio is designed to maintain a dollar-weighted average maturity of no more than 60 days and a dollar-weighted average life (final maturity, adjusted for demand features but not interest rate adjustments) of no more than

120 days. In addition, it only buys investments that have either a final or effective maturity (or, for repurchase agreements, a remaining term) of 397 days or less.

Main Risks

As with any similar pooled investment, there are several factors that could hurt the Portfolio's performance, cause you to lose money, or cause the Portfolio's performance to be less than that of other investments.

- **Interest rate risk** When short-term interest rates fall, the Portfolio's yield is likely to fall. When interest rates rise, especially if the rise is sharp or unexpected, the Portfolio's share price could fall.
- **Credit risk** The issuer of a security could fail to pay interest or principal in a timely manner. The credit quality of the Portfolio's holdings could change rapidly in certain markets, and the default or decline in credit quality of even a single investment could cause the Portfolio's share price to fall.
- **Liquidity risk** The Portfolio's share price could fall during times when there are abnormal levels of redemption requests or markets are illiquid.
- **Management risk** Performance could be hurt by decisions made by the Investment Adviser, such as choice of investments or timing of buy/sell decisions.

The FEITF Portfolio has received a rating of AAAM from Standard & Poor's.

An investment in the Portfolio is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Although the Portfolio seeks to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in the Portfolio.

Management

Investment Adviser PFM Asset Management LLC.

Fees and Expenses

These are the fees and expenses you will pay when you buy and hold shares in this Portfolio.

Annual Portfolio Operating Expenses

(Fees and expenses shown are gross numbers based on the prior year's audited financial statements and have not been reduced for contractual or voluntary fee waivers.)

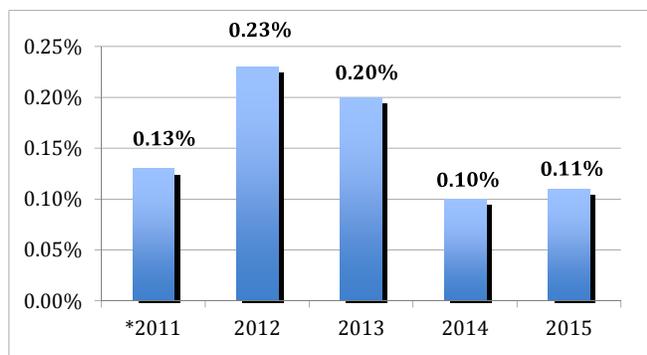

Management and administrative fees	0.14%
Other operating expenses	0.10%
Total annual operating expenses	0.24%

For a more complete description of the fees and expenses for this Portfolio, see the Fees and Expenses section in Part 2 of this document.

Past Performance

All performance figures shown here assume that dividends were reinvested. Figures shown are for the five most recent audited calendar years. For current yield information, call 877-495-8246. Past performance may not indicate future results.

Annual Total Returns (%)

Note: Returns shown above are for the Portfolio's fiscal years. FEITF's fiscal year-end is June 30th.

*For the Period October 22, 2010 (Inception) to June 30, 2011.

Purchase and Sale of Portfolio Shares

Minimum Initial Investment \$10,000

Minimum Account Balance No minimum.

Minimum Holding Period 1 day.

Placing Orders

You can place orders to buy or sell Portfolio shares by wire, automated clearing house (ACH), check, or via EON, the Fund's web-based information service.

For more complete information on buying and selling shares, see "Buying Shares-FEITF Portfolio" and "Redeeming Shares-FEITF Portfolio." For information on the potential tax consequences of investing in the Portfolio, see "Tax Information."

FEITF Term Portfolio

Investment Objective

To provide an investment subject to pre-set redemptions occurring from 60 days to one year from the time of investment, and that will produce the highest earnings consistent with maintaining principal at maturity and meeting the redemption schedule. The FEITF Term Portfolio (the "Portfolio") seeks to assure the return of principal on the planned maturity date, although principal value may fluctuate prior to that date, and therefore may be greater or less than \$1.00 a share. There is a penalty for early withdrawal, and NAV may be more or less than \$1.00 a share.

Fees and Expenses

These are the fees you may pay when you buy and hold shares in this Portfolio.

Annual Portfolio Operating Expenses (Fees and expenses shown may be subject to certain fee waivers, reimbursements or subsidies)

Management and administrative fees	0.12%
Other operating expenses	0.08%
Maximum total annual Portfolio operating expenses	0.20%

The Portfolio may charge significant penalties for any redemptions prior to the agreed-upon redemption date. As the penalty charged is based on actual costs incurred in effecting the redemption and protecting the interests of other Portfolio Participants, the actual amount of the penalty cannot be stated in advance.

For a more complete description of the fees and expenses for this portfolio, see the Fees and Expenses section in Part 2 of this document.

Principal Investment Strategies

The Portfolio invests exclusively in high-quality money market instruments, such as:

- Obligations of the U.S. Government and its Agencies and Instrumentalities
- Repurchase agreements involving obligations of the U.S. Government and its Agencies and Instrumentalities

- Commercial Paper
- Corporate Notes and Bonds
- Obligations of Banks
- Floating-Rate and Variable-Rate Obligations
- Municipal Obligations
- Money Market Mutual Funds
- Any investments authorized under Section 218.415(16) of Florida State Statutes.

For a more complete description of permitted investments and investment restrictions for the Portfolio, see the "Permitted Investments" section in Section 2 of this document.

Main Risks

As with any similar pooled investment, there are several factors that could hurt the Portfolio's performance, cause you to lose money, or cause the Portfolio's performance to trail that of other investments.

- **Credit risk** The issuer of a security could fail to pay interest or principal in a timely manner. The credit quality of the Portfolio's holdings could change rapidly in certain markets, and the default or decline in credit quality of even a single holding could cause the Portfolio's share price to fall.
- **Early redemption risk** Early redemption penalties charged to a Participant or by the Portfolio could reduce or eliminate investment gains, and could mean that the amount that Participant receives back is less than the initial investment.
- **Management risk** Performance could be hurt by decisions made by the Investment Adviser, such as choice of investments or investment maturities or timing of buy/sell decisions.

The FEITF Term Portfolio has received a rating of AAAf from Standard & Poor's.

An investment in the Portfolio is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Although the Portfolio seeks to preserve the value of your investment on the planned redemption date at \$1.00 per share, it is possible to lose money by investing in the Portfolio.

Past Performance

The performance of each individual series of the Portfolio may vary. For current rates, call 877-495-8426. Past performance may not indicate future results.

Management

Investment Adviser PFM Asset Management LLC

Purchase and Sale of Portfolio Shares

Minimum Initial Investment \$1,000,000.

Minimum Subsequent Investment \$100,000.

Minimum Account Balance \$1,000,000.

Minimum Term 60 days. Premature withdrawal may result in a penalty.

Maximum Term 1 year.

Placing Orders

In addition to setting up an account prior to your initial purchase of shares, you may need to provide certain other information and certifications.

Prior to placing any order, call the Fund's toll-free number to discuss the amount and term of your investment and to get information on projected yield.

Once your investment has been approved, you can place orders to buy or sell Portfolio shares. To place orders, contact us at:

Online www.feitf.com

Phone 877-495-8426

Orders can be processed the same Business Day if they are received and accepted by the Investment Adviser by 12:00 p.m. Eastern time and (for purchases) if the Portfolio's Custodian receives federal funds by wire prior to the close of business. Otherwise, they are processed on the next Business Day.

For more complete information on buying and selling shares, see "Buying Shares—FEITF Term Portfolio" and "Redeeming Shares—FEITF Term Portfolio." For information on the potential tax consequences of investing in the Portfolio, see "Tax Information."

Investing

Opening an Account

Eligible Participants

Participants in the Fund must be Florida school districts, political subdivisions of the State, or instrumentalities of political subdivisions of the State, that have completed a Signatory Public Agency Addendum along with other necessary documentation before investing in the Fund.

Portfolio Account Opening Process

How to Open an Account

Prospective Participants must provide a completed Signatory Public Agency Addendum before investing in the Fund.

To open an account with the Fund:

- For an initial account only, complete the New Investor Application Form.
- Complete an Account Application Form.
- Complete the Contact Record Form.
- Complete the Contact and Permissions Form that includes each person from the participating entity who will interact with the account.
- Provide a copy of the Signatory Public Addendum.
- Provide a completed IRS W-9 form.

Complete a separate Account Application Form for each account, signed by an authorized representative.

To obtain account forms, call 877-495-8246 or visit www.feitf.com to download them.

Mail or fax account documents to:

Florida Education Investment Trust Fund
PO Box 11813
Harrisburg, PA 17108
Fax: 800-252-9551

Original signatures are not needed by the Investment Adviser. Please retain copies for your records. Once your documents have been accepted by the Investment Adviser, we will open your account and send you an account number.

Instructions by the Participant on the Account Application forms will remain in effect until FEITF receives written notification to change them.

Any changes to addresses, account registrations, names or signatures of authorized officials, or other critical information will require appropriate documentation. The signature of an authorized individual is required when changes are made to account instructions. Forms may be obtained online at www.feitf.com or by calling FEITF at 1-877-495-8246. FEITF's representatives are available on Business Days from 8:30 a.m. until 5:00 p.m. Eastern Time.

Investments in the Fund can be made by wire transfer or ACH (see "Buying Shares" below.)

Participants may open sub-accounts with the Fund for their accounting convenience or to meet fund segregation requirements.

Business Days

The Fund is open Monday through Friday (each, a "Business Day"). A Business Day is any day that (1) both the Federal Reserve Bank of New York and the Fund's Custodian are open for business and (2) the primary trading markets for the Fund's portfolio instruments are open and the Fund's management believes there is an adequate market to meet purchase and redemption requests. Additionally, the Fund is authorized not to open for trading on a day that is otherwise a Business Day if the Securities Industry and Financial Markets Association ("SIFMA") recommends that the primary trading markets close. The Fund may also close early on a Business Day if the SIFMA recommends that primary trading markets close early.

In light of anticipated limited availability for money market securities and fixed income settlement capacity limitations, Management has determined that the Fund will not be open for business on Good Friday even if the primary trading markets are open. Specifically, no Federal Reserve wire settlement will occur, purchases and redemptions will not be accepted and no settlement will occur for the Fund.

Buying Shares — FEITF Portfolio

Once your application has been accepted, you may invest in **FEITF Portfolio** shares using one of the methods in the table below. All investments must be in U.S. dollars and must be drawn on a U.S. bank or a U.S. branch of a foreign bank. **Your investments must meet the investment minimums and other terms described in the applicable Portfolio Summary.**

The Investment Adviser may refuse any investment or limit the size of an investment.

Method	Instructions	Additional information
Wire (same-day settlement)	<ul style="list-style-type: none"> ● Initiate a transaction online or by calling 877-495-8246 before 2:00 p.m. Eastern Time. ● Provide the following information: ● Account name and account number ● Amount being wired ● Name of bank sending wire ● Instruct your bank to initiate the wire on the same day to Wells Fargo Bank. Detailed instructions can be found on the Internet at www.feitf.com or by calling 877-495-8246. 	<ul style="list-style-type: none"> ● The Fund does not charge fees for receiving wires. However, the sending bank may charge for wiring funds. To avoid or minimize charges, use an ACH transfer as described below. It is your responsibility as a Participant to ensure that immediately available funds are received by FEITF on the settlement date. ● If funds are not available on the settlement date, you may be charged a fee.
ACH transfer (settles next Business Day)	<ul style="list-style-type: none"> ● Before making your first transfer, call 877-495-8246 and register for ACH transfers. ● Initiate an ACH transaction online or by calling 877-495-8246 before 4:00 p.m. Eastern Time. 	<ul style="list-style-type: none"> ● Funds will transfer overnight and begin earning interest the next Business Day. ● The Fund does not charge fees for ACH transfers, and transferring banks generally do not impose fees for ACH transfers initiated by FEITF either.
Online	<ul style="list-style-type: none"> ● Before making your first online transaction, submit both the Contact Record form and Permissions form, which may be obtained either by calling 877-495-8246 or by visiting www.feitf.com. ● Use EON to place wire or ACH orders. 	

Redeeming Shares — FEITF Portfolio

You may withdraw all or any portion of the funds in your FEITF Portfolio account at any time by redeeming shares. Shares will be redeemed at the net asset value per share next determined after receipt of a request for withdrawal in

proper form. This determination is made at the conclusion of each Business Day. Funds may be withdrawn in any of the ways shown below.

Method	Instructions	Additional information
Wire (same-day settlement)	<ul style="list-style-type: none"> ● Use EON or call 877-495-8246 on any Business Day to request a withdrawal and the transfer of proceeds to the bank account specified on your Account Application. ● If your request is received before 2:00 p.m. Eastern Time, funds will be wired on that same day. ● Requests received after 2:00 p.m. Eastern Time will be processed on the following Business Day. 	<ul style="list-style-type: none"> ● The Fund does not charge fees for sending wires; however, your depository may impose wire charges for receiving them. ● You must notify us in writing of any changes to the specified banking instructions.
ACH transfer (settles next Business Day)	<ul style="list-style-type: none"> ● Before making your first transfer, call 877-495-8246 and register for ACH transfers. ● Initiate an ACH transaction online or by calling 877-495-8246 before 4:00 p.m. Eastern Time. 	<ul style="list-style-type: none"> ● Funds will transfer overnight and be available the next Business Day. ● Funds remain invested until the day they are transferred. ● The Fund does not charge fees for ACH transfers, and transferring banks generally do not impose fees for ACH either.
Online	<ul style="list-style-type: none"> ● Before making your first online transaction, submit both the Contact Record form and Permissions form, which may be obtained either by calling 877-495-8246 or by visiting www.feitf.com. ● Use EON to place wire or ACH orders. 	

Buying Shares — FEITF Term Portfolio

Once your application to open a FEITF Term Portfolio account has been accepted, you may invest in the Portfolio by authorizing the Investment Adviser to invest funds in a FEITF Term Portfolio account. Prior to placing any order, call us to discuss the amount and term of your investment and to get information on the projected yield. Each investment will be given its own projected yield. Yields may vary

according to the term of the investment and the rates available at the time of investment.

The Investment Adviser may refuse any investment or limit the size of an investment.

Redeeming Shares — FEITF Term Portfolio

Funds may be withdrawn in any of the ways shown below. Be sure that one or more bank accounts has been pre-authorized to receive redemptions proceeds. If there is

more than one pre-authorized bank account, call 877-495-8246 in advance to let us know which account is to receive redemption proceeds.

Type of Redemption	Instructions	Additional information
Maturity	<ul style="list-style-type: none"> No action required. Redemption value will be reinvested in FEITF Portfolio shares at maturity date. 	<ul style="list-style-type: none"> Redemption value per share will equal the purchase price plus dividends (at the projected yield) minus any losses incurred by the series (not counting those resulting from premature redemptions).
Premature Redemption <i>Redemption prior to maturity date</i>	<ul style="list-style-type: none"> Send a letter to the Investment Adviser requesting redemption prior to maturity date. Alternatively, you can notify the Investment Adviser by calling 877-495-8246 and following up with written confirmation of your instructions. 7 days after we receive your request, redemption proceeds will be transferred to purchase FEITF Portfolio shares. 	<ul style="list-style-type: none"> Premature redemption amounts must be for the entire investment or, for partial redemptions, must be in increments of \$100,000. Redemption value per share will equal the purchase price plus dividends earned to date minus any losses incurred by the series and any premature redemption penalty.
Planned Early Redemption <i>Redemption prior to maturity date</i>	<ul style="list-style-type: none"> At the time an order for shares is placed, Participants may submit a request for redemption on a Planned Early Redemption Date prior to the termination date for the FEITF Term series without the imposition of a penalty. Redemption value will be reinvested in FEITF Portfolio shares at the Planned Early Redemption date. 	<ul style="list-style-type: none"> The redemption value per share for shares being redeemed on a Planned Early Redemption Date is equal to the original purchase price for such shares plus dividends thereon, less such share's allocation of any losses incurred by the series (other than losses resulting from Premature Redemption of shares of the series).

Policies Concerning Withdrawals

Suspending Withdrawals

The Trustees can suspend the right of withdrawal or postpone the date of payment if the Trustees determine that there is an emergency that makes the sale of a Portfolio's securities or determination of its net asset value not reasonably practical.

Policies Specific to the FEITF Portfolio

Valuation of Shares

Net asset value per share is computed by the Investment Adviser as of the close of business on each Monday through Friday, exclusive of any day on which both the bond market (as determined by the Securities Industry and Financial Markets Association "SIFMA") and the Custodian are not open for business. The Fund may close early on any days when the bond market closes early. In light of anticipated limited availability for money market securities and fixed income settlement capacity limitations, the Fund will not be open for business on Good Friday even if the primary trading markets are open (each a "Business Day"). Net asset value per share is calculated by dividing the value of the Fund's total assets less its liabilities (including accrued expenses) by the number of shares outstanding.

In determining the value of the FEITF's assets, securities held by the Portfolio are valued using the amortized cost method of valuation. This method involves valuing each investment at cost on the date of purchase and thereafter assuming a constant amortization to maturity of any discount or premium, regardless of the impact of fluctuating interest rates on the market value of the investment. Amortized cost valuation provides certainty in valuation, but may result in periods during which the value of an investment, as determined by amortized cost, is higher or lower than the price that would be received if the investment were sold.

While the Portfolio seeks to maintain a net asset value of \$1.00 per share, for the reasons discussed below, there can be no assurance that the net asset value will remain at \$1.00 per share. The market value basis for determining net asset value per share for the Fund may be affected by general changes in interest rates resulting in increases or decreases in the value of securities held by the Fund. The market value of such securities will tend to vary inversely to changes in prevailing interest rates. Thus, if interest rates rise after a security is purchased, such a security, if sold, might be sold at a price less than its amortized cost. Similarly, if interest rates decline, such a security, if sold,

might be sold at a price greater than its amortized cost. If a security is held to maturity, no loss or gain is normally realized as a result of these price fluctuations; however, withdrawals by Participants could require the sale of portfolio securities prior to maturity. In the event that the difference between the amortized cost basis for determining net asset value per share and market value basis for determining net asset value per share exceeds 1/2 of 1 percent, the Investment Adviser and the Trustees will consider what, if any, corrective action should be taken to minimize any material dilution or other unfair results which might arise from differences between the two. This action may include the reduction of the number of outstanding shares by having each Participant proportionately contribute shares to the Portfolio's capital, suspension of dividends, declaration of a special capital distribution, sales of portfolio securities prior to maturity to reduce the average maturity or to realize capital gains or losses or redemptions of shares in kind in an effort to maintain the net asset value at \$1.00 per share. If the number of outstanding shares is reduced in order to maintain a constant net asset value of \$1.00 per share, Participants will contribute proportionately to the Portfolio's capital the number of shares which represent the difference between the amortized cost valuation and market valuation of the Portfolio. Each Participant will be deemed to have agreed to such contribution by its investment in the Portfolio.

Income Determinations and Dividends

All net income of the Portfolio is determined on each Business Day. Net income is paid as of the close of business of each calendar month in the form of additional shares of beneficial interest which are credited to each Participant's account. Such net income is converted into full and fractional shares of beneficial interest at the rate of one share for each one dollar (\$1.00) paid. Although income is not automatically paid in cash, Participants may obtain cash by redeeming shares at their net asset value without charge.

For the purpose of calculating dividends, net income shall consist of interest earned plus the relevant portion of any securities purchase discount ratably amortized to the maturity date plus or minus all realized gains and losses on the sale of securities prior to maturity, less ratably amortization of any premium, less all accrued expenses, including the fees payable to those who provide services to the Fund.

Yield

Current yield information for the Portfolio may, from time to time, be quoted in reports, literature and advertisements published by the Fund. The current yield of the Portfolio, which is also known as the current annualized yield or the

current seven-day yield, represents the net change, exclusive of capital changes and income other than investment income, in the value of a hypothetical account with a balance of one share (normally \$1.00 per share) over a seven-day base period expressed as a percentage of the value of one share at the beginning of the seven-day period. This resulting net change in account value is then annualized by multiplying it by 365 and dividing the result by 7.

The Fund may also quote a current effective yield of the Portfolio from time to time. The current effective yield represents the current yield compounded to assume reinvestment of dividends. The current effective yield is computed by determining the net change (exclusive of capital changes and income other than investment income), over a seven day period in the value of a hypothetical account with a balance of one share at the beginning of the period, dividing the difference by the value of the account at the beginning of the period to obtain the base period return, then compounding the base period return by adding 1, raising the sum to a power equal to 365 divided by 7, and subtracting 1 from the result. The current effective yield will normally be slightly higher than the current yield because of the compounding effect of the assumed reinvestment.

The Fund also may publish a “monthly distribution yield” on each Participant’s month-end account statement. The monthly distribution yield represents the net change in the value of a hypothetical account with a balance of one share (normally \$1.00 per share) resulting from all dividends declared during a month by the Portfolio expressed as a percentage of the value of one share at the beginning of the month. This resulting net change is then annualized by multiplying it by 365 and dividing it by the number of calendar days in the month.

At the request of the Trustees or Participants, the Fund may also quote the current yield from time to time on bases other than seven days for the information of its Participants.

How Purchase Prices are Determined

The exact price for Portfolio shares will be determined based on the NAV next calculated after the Investment Adviser accepts a properly executed order. However, if the Depository Bank does not receive federal funds on a timely basis, your price will instead be based on the next NAV calculated after receipt of funds. The number of shares you receive will be determined by the NAV .

Policies Specific to the FEITF Term Portfolio

Dividends and Distributions

Dividends on shares of an FEITF Term Portfolio series are declared and paid on the termination date of such series, except for dividends on shares redeemed pursuant to a Premature or Planned Early Redemption which will be declared and paid when such shares are redeemed. Dividends will be paid from net income, which will consist of interest earned, plus any discount ratably amortized to the date of maturity, plus associated projected yield and the attributable share of losses on the sale of securities prior to maturity, less ratably amortization of any premium and all accrued expenses of the series.

Dividends on shares which are declared and paid on a Planned Early Redemption Date are equal to the projected yield for such shares to the Planned Early Redemption Date, less any losses affecting projected yield attributable to such shares. Dividends on shares declared and paid on a Premature Redemption Date are equal to the projected yield for such shares to the Premature Redemption Date, less any losses affecting projected yield attributable to such shares. Dividends on shares declared and paid on a termination date for a series are equal to the projected yield for such shares to the termination date, less any losses affecting projected yield attributable to such shares, plus an additional dividend, if any, equal to any excess net income of the series attributable to such shares. Any excess net income of a series on the termination date will be distributed as an additional dividend only to the shares of the series that are outstanding on the termination date of the series, and the excess net income will be allocated on a pro rata basis to all shares then outstanding. Additional dividends, if any, will be deposited into a Participant’s FEITF Portfolio account.

Investment securities may be distributed to the Participants in any series in lieu of cash whenever the Trustees determine that such distributions would be in the best interest of the Participants in the series. The investments made for the Portfolio are in money market instruments of generally short maturities. The Investment Adviser may attempt to maximize yields through trading, to take advantage of short-term market variations. These strategies may result in high Portfolio turnover. However, since the costs of transactions of the type in which the Portfolio engages are small, high turnover rate is not expected to adversely affect net asset values or yields.

Yield

The yield quoted for any investment in the FEITF Term Portfolio is determined by dividing the expected net income per share for the period from the settlement date to the termination date by the purchase price per share, dividing this result by the actual number of days between the settlement date and the termination date, and multiplying the result by 365/366.

Premature Redemption Penalty

The penalty for a Premature Redemption will be calculated by the Investment Adviser and will be equal to (i) all penalty charges, losses and other costs (including, without limitation, interest paid on funds borrowed to pay the redemption) associated with amending, terminating, selling or otherwise affecting any of the investments in the series in order to pay the Premature Redemption and (ii) an amount sufficient to maintain the projected yield on the remaining shares in the series to the stated termination date for the series, less any losses affecting projected yield attributable to such shares. Thus, a Premature Redemption of shares may result in a penalty which could reduce the return and the principal value of the investment in amounts not ascertainable at the time shares of the FEITF Term Portfolio are issued. The redemption value per share could be lower than the purchase price of the share, and the return could be lower than the projected yield quoted at the time of issuance of the share.

Allocation of Losses

Any losses incurred by a FEITF Term Portfolio series (other than losses resulting from Premature Redemptions of shares of the series) will be allocated among all shares of the series outstanding at the time such loss is incurred. Such a loss may result from a default on an investment or from a sale of an investment. If such a loss occurs, the redemption value per share could be lower than that on which the projected yield was quoted at the time of issuance of the share.

Calculating Share Price

The redemption value per share for any series of the FEITF Term Portfolio will be determined on any day when redemption is made and on termination of the series. It is the intent of the Fund to manage each series in the FEITF Term Portfolio in a manner that produces a share price of at least \$1.00 on the termination date.

The Investment Adviser, on behalf of the Fund, determines the net asset value of the shares of the FEITF Term Portfolio at the close of each Business Day for the purpose of computing fees. The net asset value per share for each series of the FEITF Term Portfolio is calculated by

dividing the total value of investments and other assets less any liabilities by the total outstanding shares of the series as of the day the calculation is made.

General Policies

Services to Participants

The Fund offers certain additional account features at no extra charge, including:

Statements Daily transaction confirmations are available only on EON. The Investment Adviser provides monthly statements showing the previous month's transactions, dividends paid and the account balance as of the statement date. The statements also indicate total year-to-date income earned. Monthly statements are also available through EON within two Business Days after month-end. Participants may elect to stop receiving statements by mail.

Information Services Toll-free telephone service, **877-495-8246**, is available to provide Participants with information including up-to-date account information and transaction history, and to receive instructions for the investment or withdrawal of funds.

Website Account information and information regarding the Fund's Portfolios along with current news about the Fund can be found at www.feitf.com. A password and user identification is required to initiate a transaction or access account information. The system can be accessed through the FEITF website by selecting "Account Access." A password and user identification can be received by contacting FEITF at **877-495-8246**.

Information on Portfolio Holdings

Each Portfolio discloses a summary of its holdings online monthly and a full description of each Portfolio's holdings in the annual audited financial reports.

For our policy on the disclosure of Portfolio holdings, see Part 2.

Rights we reserve

The Fund reserves the right, acting through its appropriate entity, to do any of the following:

- Add, change, or drop account minimums at any time without advance notice.
- Limit the frequency of purchases for any reason.

Tax Information

We suggest that you check with your tax advisor before investing in a Portfolio. Relevant considerations include:

- Section 115(1) of the Internal Revenue Code of 1986, as amended (“Code”), which provides that the gross income of a state or political subdivision does not include income derived from the exercise of any essential government function.
- Section 148 of the Code (and related regulations) covering rebate requirements, which may apply to anyone investing tax-exempt or tax-credit bond proceeds.
- The arbitrage limitations or rebate requirements of section 148 of the Code (and related regulations), under which states and municipalities may be required to pay the U.S. Treasury a portion of earnings they derive from the investment of certain funds.

Financial Highlights

The Portfolios’ audited financial statements and financial highlights are included in the FEITF Annual Report for the year end. The Annual Report is available upon request.

Part 2: Organization of the Fund, Fund Investment Policy, and Service Providers

GENERAL INFORMATION

The Fund

Background

FEITF is a common law trust organized under the authority of the Florida Interlocal Cooperation Act of 1969, as amended (Section 163.01 of the Florida Statutes) and Section 218.415 of the Florida Statutes. FEITF was created on October 22, 2010 by contract among its participating governmental units and is governed by the Trustees. The Fund is an investment opportunity for State school districts, political subdivisions of the State or instrumentalities of political subdivisions of the State (herein referred to as “Participants”).

The Trustees have appointed an Investment Advisory Committee (the “Advisory Committee”) of Florida governmental business officials to advise the Trustees in fulfilling their duties. The Advisory Committee does not have binding powers with respect to the Fund except and where delegated so by the Trustees. The FSBA and the FADSS (each, a “Sponsor,” and together, the “Sponsors”) sponsor the Fund. PFMAM, a registered investment adviser under the Investment Advisers Act of 1940, serves as the investment adviser and provides administrative services to the Fund under an agreement with the FEITF Board. PFM Fund Distributors, Inc. (“PFM Fund Distributors” or the “Distributor”), a wholly-owned subsidiary of PFMAM, is a member of the Financial Industry Regulatory Authority and also subject to the rules of the Municipal Securities Rulemaking Board, provides marketing services to the Fund, assists Participants in completing and submitting registration forms, assists in preparing and distributing information about the Fund and advises the Trustees regarding methods of seeking and obtaining additional Participants for the Fund. Wells Fargo Bank, N.A., serves as the Custodian and Depository bank for the Fund.

Objectives

The objective of FEITF is to offer conservative, efficient and liquid investment alternatives to school districts and other public agencies in the State of Florida so that they may benefit from and realize a higher investment return by utilizing economies of scale and professional investment expertise. It is the policy of FEITF to invest pooled assets in a manner which will provide for preservation and safety of principal while seeking competitive investment returns and meeting the liquidity needs of the Participants. Specifically, the primary investment objectives of the FEITF in order of priority are:

- safety of funds and investments,
- maintenance of sufficient liquidity,
- diversification to avoid unreasonable or avoidable risks, and
- a competitive yield.

This Information Statement establishes investment strategies, policies, and procedures intended to assure that these objectives are met.

FEITF is managed to comply with the specific requirements of Florida law, particularly the laws applicable to the investment of Participants’ funds, including those which govern the investment of public funds by school boards (Section 218.415 of the Florida Statutes) and the Florida Interlocal Cooperation Act of 1969, as amended (Section 163.01 of the Florida Statutes).

Purpose

The Declaration of Trust for the Fund permits and provides for the creation of several specialized asset portfolios (“Portfolios”) by the Fund, and sets forth the manner in which any such Portfolio may be created and managed. Various Portfolios may be designed to meet the specific investment objectives and needs of Participants. At present, the Fund has two Portfolios available to Participants, the FEITF Portfolio and the FEITF Term Portfolio. In the future the Fund may create other Portfolios. Unless otherwise stated, this Information Statement applies only to the FEITF Portfolio and the FEITF Term Portfolio.

FEITF Portfolio. The investment objective of the FEITF Portfolio is to provide its Participants with high current income consistent with stability, safety of principal and liquidity as outlined above. This objective may not be changed without the approval of the relevant Portfolio’s outstanding voting securities. The FEITF Portfolio seeks to maintain a stable NAV of \$1.00 per share although there is no guarantee that this objective can be achieved. The FEITF Portfolio attempts to mitigate this risk by maintaining a dollar weighted average portfolio maturity of 60 days or less calculated using the next reset date for variable rate securities and a dollar-weighted average portfolio life of 120 days or less using the final maturity date for variable rate securities.

FEITF Term Portfolio. The investment objective of the FEITF Term Portfolio is to provide an investment subject to pre-set redemptions occurring from 60 days to one year from the time of investment, and that will produce the highest earnings consistent with maintaining principal at maturity and meeting the redemption schedule. The FEITF Term Portfolio seeks to assure the return of principal on the planned maturity date, although principal value may fluctuate prior to that date, and therefore may be greater or less than \$1.00 a share. There is a penalty for early withdrawal, and NAV may be more or less than \$1.00 a share.

How the Fund is Managed

Board of Trustees

The Trustees oversees the actions of all service providers, professional advisers and consultants to the Fund and decides on general policies. Initially the number of Trustees shall be eight (8) voting Trustees and two (2) *ex officio* Trustees and will be fixed from time to time by the mutual agreement of FSBA and the FADSS, *provided, however*, that the number of Trustees shall at no time be less than three (3) or more than fifteen (15). FSBA has appointed four initial Trustees for a three-year term and FADSS has appointed four initial Trustees for a three-year term. As terms expire, the original appointing organization will appoint successors. The Executive Director of the FSBA and the Executive Director of FADSS shall serve as *ex officio* Trustees with all of the powers of the other Trustees except for the power to vote on matters coming before the Board of Trustees.

The Trustees serve without compensation, but they are reimbursed by the Fund for reasonable travel and other out-of-pocket expenses incurred in connection with their duties as Trustees. The Trustees are not required to devote their entire time to the affairs of the Fund and are not required to personally conduct all of the business of the Fund.

Sponsors

The FSBA and the FADSS sponsor the Fund. The Sponsors provide consulting services and assist the Fund in the preparation of information about the Fund and in the limited distribution of certain information prepared by the Fund.

Investment Adviser, Administrator, and Transfer Agent

PFMAM is registered under the Investment Advisers Act of 1940, as amended, and is under common ownership with PFM, a financial advisory firm. PFMAM was established by the shareholders of PFM in July 2001 to conduct the investment advisory business in which PFM had been engaged since 1980.

PFMAM served as Investment Adviser to FEITF since the Fund’s inception in 2010, and effective February 23, 2015, was engaged by the Trustees to also act as the Fund’s Administrator and Transfer Agent.

As Investment Adviser, PFMAM is responsible for supervising the Fund’s investment program, managing the Fund’s assets, implementing any training programs approved by the Trustees, providing the Trustees with quarterly performance evaluations, and maintaining the books and records of the Fund.

PFMAM also provides certain administrative services to the Fund, such as:

- Calculating the NAV of each Series.
- Arranging for quarterly Board meetings.
- Overseeing the preparation of tax returns, reports to the Board, Participant reports, and regulatory filings.
- Coordinating the activities of other service providers.

In its role as transfer agent for the Fund, PFMAM receives, validates, and processes orders to buy and sell Fund shares.

In this document, the term “Investment Adviser” is used to indicate PFMAM, even when referring to it in its their capacity as Administrator or Transfer Agent, if applicable.

Distributor

PFM Fund Distributors, Inc., a wholly owned broker-dealer subsidiary of PFMAM, offers shares of the Fund on a continuous basis. It is responsible for maintaining, printing and distributing sales materials.

Public Relations Firm

Florida School Services, Inc. provides public relations services to the Fund.

Custodian and Depository

Wells Fargo Bank, N.A., serves as the Custodian and Depository bank for the Fund. The bank does not participate in determining the investment policies of the Fund or in investment decisions.

Legal Counsel

Meyer, Brooks, Demma and Blohm, P.A. serves as legal counsel to the Fund.

Independent Auditor

Carr, Riggs & Ingram, LLC serves as the independent auditor of the Fund.

Fees and Expenses

The fees paid by the Fund to its Sponsors and service providers are as follows:

Management and Administrative Costs

Investment Adviser, Administrator, and Transfer Agent fees. The annual fee for PFMAM services is calculated as a percentage of average daily net assets:

FEITF Portfolio	
Average Daily Net Assets	Fee
First \$500 million	0.14%
Next \$500 million	0.13%
Over \$1 billion	0.12%
<i>These fees are accrued daily and payable monthly. PFM Fund Distributors, Inc. is not separately compensated for the distribution services it provides to the FEITF Portfolio.</i>	

FEITF Term Portfolio	
Average Daily Net Assets of Each Series	Fee
All assets	0.12%
<i>These fees are accrued daily and payable monthly.</i>	

PFMAM has agreed to reimburse the FEITF Term Portfolio for the amount by which its fees and total expenses (excluding any legal and litigation-related fees) exceed 0.20%, as annualized average daily net assets.

Sponsor Fees. The Fund pays an annual Sponsor fee of \$100,000.

Public Relations Fees. The Fund pays Florida School Services, Inc. a fee for its public relations services.

Custodian and Depository Fees. The Fund pays Wells Fargo Bank, N.A.. fees for various custodial, depository and cash management banking services required to operate the fund and facilitate Participant transactions.

In addition to the above fees, the Fund pays certain out-of-pocket expenses incurred by the Trustees, fees for legal and auditing services, rating services, insurance premiums and any other operating expenses not expressly assumed by any of the Fund's Service Providers.

Fee Waivers. PFMAM, Florida School Services, and the Sponsors (each a "Service Provider") may, but shall not be obligated to, reduce a portion of its fees to assist the Fund in an attempt to maintain a positive yield. The terms of any such fee reduction shall be set forth in a separate Fee Waiver Agreement between the Service Provider and the Fund.

THE PORTFOLIOS

Information Common to All Portfolios

Investment Risks

Although the Fund will try to invest wisely, all investments involve risks. A prolonged decline in short-term interest rates will reduce the yield of the Fund as higher-yielding instruments mature and are replaced with lower-yielding investments. The Fund only invests in high quality obligations. However, if an issuer fails to pay interest or to repay principal, the investment will be adversely affected and NAV per share of the Fund could decline. NAV may also be adversely affected by a substantial increase in short-term interest rates if it becomes necessary for the Fund to sell an investment prior to its maturity. In addition, the Fund's performance is subject to the risk that poor security selection by the Fund's Investment Adviser could cause the Fund to underperform relevant benchmarks or other funds with a similar investment objective.

An investment in the Fund is not a bank deposit and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government or private agency. Although the Fund seeks to maintain a stable NAV of \$1.00 per share, it is possible to lose money by investing in the Fund.

Investment Policy and Guidelines, Liquidity

The primary standard for investment of the Fund shall be the "Prudent Investor Rule" which states, in part, "*A trustee shall invest and manage trust assets as a prudent investor would, by considering the purposes, terms, distribution requirements, and other circumstances of the trust. In satisfying this standard, the trustee shall exercise reasonable care, skill, and caution.*"

The Fund's Advisory Committee shall review this document at least annually and make recommendations to the Trustees as to the adequacy or need for changes or additions as part of the review process.

To pursue its investment objective, the Portfolios purchase the U.S. dollar denominated instruments described in this Information Statement. Pursuant to procedures approved by the Fund's Trustees, the Portfolios will invest in a security only if the Investment Adviser is satisfied that the credit risk associated with the investment is minimal.

From time to time, cash assets of the Portfolios may be maintained in a demand deposit or other deposit account with the Custodian pending investment, subject to Florida public funds deposit and collateral requirements.

Unless otherwise noted, permitted investment limitations or other investment restrictions expressed herein will apply at the time of purchase.

Permitted Investments

Obligations of the United States Government and its Agencies and Instrumentalities.

- 1) The Portfolios may purchase bills, notes and bonds issued by the U.S. Treasury and backed by the full faith and credit of the United States.
- 2) The Portfolios may purchase obligations of any agency or instrumentality of the United States, including but not limited to, obligations of Fannie Mae, Freddie Mac, the Federal Home Loan Banks, the Federal Farm Credit Banks and the Government National Mortgage Association.
- 3) The Portfolios may invest in obligations issued by entities with liquidity support from the U.S. Government, or its agencies or instrumentalities. These support arrangements provide that the U.S. Government or its agencies or instrumentalities will advance funds to the entity to pay the obligations of the entity to the extent it has insufficient funds to pay amounts due on its obligations.

Repurchase Agreements. The Portfolios may enter into repurchase agreements. Repurchase agreements are transactions in which the Fund purchases securities and simultaneously commits to resell those securities to the seller at an agreed upon price on an agreed upon future date. Repurchase agreements shall be collateralized daily at 102% whose underlying

purchased securities consist only of the instruments listed in the Obligations of the United States Government and its Agencies and Instrumentalities section of the Permitted Investments.

Commercial Paper. The Portfolios may invest in “prime quality” commercial paper of corporations organized under the laws of the United States or any state thereof, including paper issued by bank holding companies and high-quality asset-backed securities, with a maturity of 270 days or less. “Prime quality” means that it shall be rated in the top short-term rating category of either Moody’s or S&P or a comparable rating by a nationally recognized statistical rating organization (“NRSRO”) with not more than 5% with any one issuer.

Corporate Notes and Bonds. The Portfolios may invest in bonds, notes and other evidences of indebtedness or obligations issued by corporations organized under the laws of the United States or any state having a remaining maturity less than or equal to 397 days. All such debt obligations purchased by the Portfolios shall be rated at least A or better by Moody's, S&P, or a comparable rating by another NRSRO.

Obligations of Banks. The Portfolios may purchase bankers' acceptances, certificates of deposit and negotiable bank deposit notes issued by domestic banks and foreign banks. Negotiable certificates of deposit and bank deposit notes with maturities of one year or less will be considered for purchase if rated in the top short-term rating category of either Moody’s or S&P or a comparable rating by another NRSRO. Negotiable bank obligations with a remaining maturity of over one year will be considered for purchase if rated A or better by S&P or a comparable rating by another NRSRO.

The Portfolios may invest in savings accounts or time deposits or share accounts of institutions to the extent that deposits are insured by the Federal Deposit Insurance Corporation through the Deposit Insurance Fund or the National Credit Union Administration through the National Credit Union Share Insurance Fund to the extent that such accounts are so insured, and for any amounts above the insured maximum, provided that collateral consistent with the permitted investments of this Information Statement is pledged by the depository, or the depository obtains a letter of credit from a Federal Home Loan Bank in lieu of pledging collateral. The Portfolios will not invest in any bank obligation with a remaining maturity of greater than 397 days.

Floating-Rate and Variable-Rate Obligations. Debt obligations purchased by the Portfolios may have interest rates that are periodically adjusted at specified intervals or whenever a benchmark rate or index changes. These securities may have demand features which gives the Portfolios the right to demand repayment of principal on specified dates or after giving a specified notice. Adjustable rate securities and securities with demand features may be deemed to have maturities shorter than their stated maturity dates.

Municipal Obligations. The Portfolios may invest in the bonds, notes and other evidences of indebtedness of municipal entities including any state of the United States or any city, county, town or district situated in any one of the states of the United States having a remaining maturity less than or equal to 397 days. All such debt obligations purchased by the Portfolio shall be rated at least A or better by Moody's, or S&P, or a comparable rating by another NRSRO.

Securities Issued by Other Money Market Funds. No-load money market mutual funds that (i) are registered with and regulated by the Securities and Exchange Commission, (ii) include in their investment objectives the maintenance of a stable net asset value of \$1.00, and (iii) are rated AAA or equivalent by at least one NRSRO.

Section 218.415(16), Florida Statutes. Without limited the foregoing, any investments authorized under Section 218.415(16), Florida Statutes.

Investment activity in the following are prohibited:

- Short sales;
- Margin transactions;
- Commodity or future contracts;
- Venture capital, private placements or initial public offerings;
- Option trading; and,
- Derivative transactions.

Information Specific to the FEITF Portfolio

Rating

The FEITF Portfolio will be managed to ensure that it will meet all the necessary requirements to maintain a AAAm rating or equivalent by S&P. S&P's fund ratings are based on analysis of credit quality, market price exposure, and management. According to S&P's rating criteria, the AAAm rating signifies excellent safety of invested principal and a superior capacity to maintain a \$1.00 per share net asset value. However, it should be understood that the rating is neither a "market" rating nor a recommendation to buy, hold or sell the securities.

Maturity Requirements

The Investment Adviser shall maintain the dollar weighted average maturity of the FEITF Portfolio in a manner that it believes is appropriate to the objective of maintaining a stable net asset value per share; provided that (i) in no event shall any security be acquired with a remaining "maturity" (as such term is defined below) of greater than 397 calendar days; (ii) the dollar weighted average maturity of the Portfolio shall in no event exceed 60 days, computed in accordance with the procedures described in this section and (iii) the Portfolio shall not maintain a dollar weighted average portfolio life that exceeds 120 calendar days, determined without regard to the date of any reset dates for interest rate readjustments.

For the purpose of computing maturity and dollar-weighted average maturity, the maturity of a security is deemed to be the period remaining (calculated from the trade date or such other date on which the interest in the security is subject to market action) until the date on which, in accordance with the terms of the security, the principal amount must unconditionally be paid or, in the case of a security called for redemption, the date on which the redemption payment must be made, except that for a Variable Rate Security a Floating Rate Security, repurchase agreements and money market fund securities the basis shall be as follows;

- A. Variable Rate Security is a security which provides for the adjustment of its interest rate on set dates and which, upon each adjustment until the final maturity of the security or the period remaining until the principal amount can be recovered through demand, can reasonably be expected to have a market value that approximates its amortized cost.
 - 1) A Government Security which is a Variable Rate Security, and which has its rate of interest readjusted no less frequently than every 397 days shall be deemed to have a maturity equal to the period remaining until the next readjustment of the interest rate.
 - 2) The maturity of each Variable Rate Security, the principal amount of which, in accordance with its terms, must unconditionally be paid in 397 calendar days or less, is deemed to be the earlier of (a) the period remaining until the next interest rate adjustment, or (b) the period remaining until the principal amount can be recovered through demand.
 - 3) The maturity of each Variable Rate Security, the principal amount of which is scheduled to be paid in more than 397 days and that is subject to a Demand Feature (as defined in paragraph (4) below), is deemed to be the longer of (a) the period remaining until the principal amount can be recovered through demand, or (b) the period remaining until the next interest rate adjustment.
 - 4) Each security having a remaining maturity of more than 397 days shall be subject to a Demand Feature. "Demand Feature" shall mean (i) a Put that entitles the Fund, as holder, to receive the amortized cost of the security plus accrued interest, if any, at the time of exercise and is exercisable either at any time upon no more than 30 days' notice, or at specified intervals not exceeding 397 calendar days and upon no more than 30 days' notice, provided that such Demand Feature may be sold, transferred, or assigned only with the underlying security involved; or (ii) if the security is an Asset Backed Security, a feature permitting the holder of the Asset Backed Security unconditionally to receive principal and interest within thirteen months of making demand.
- B. Floating Rate Security is a security which provides for the adjustment of its interest rate whenever a specified rate changes and which, at any time until the final maturity of the security or the period remaining until the principal amount can be recovered through demand, can reasonably be expected to have a market value that approximates its amortized cost.

- 1) The maturity of each Floating Rate Security, the principal amount of which, in accordance with its terms, must unconditionally be paid in 397 calendar days or less, shall be deemed to be one day.
 - 2) The maturity of each Floating Rate Security, the principal amount of which is scheduled to be paid in more than 397 days and that is subject to a Demand Feature (as defined in paragraph (3) below), is deemed to be the period remaining until the principal amount can be recovered through demand.
 - 3) Each security having a remaining maturity of more than 397 days shall be subject to a Demand Feature. Demand Feature shall mean (i) a Put that entitles the Fund, as holder, to receive the amortized cost of the security plus accrued interest, if any, at the time of exercise and is exercisable either at any time upon no more than 30 days' notice, or at specified intervals not exceeding 397 calendar days and upon no more than 30 days' notice, provided that such Demand Feature may be sold, transferred, or assigned only with the underlying security involved; or (ii) if the security is an Asset Backed Security, a feature permitting the holder of the Asset Backed Security unconditionally to receive principal and interest within thirteen months of making demand.
- C. Repurchase Agreements are agreements in which an investor buys securities from a counterparty who agrees to buy the securities back at a later date at an agreed upon price. The difference between purchase price and the resale price determines the yield. The maturity of a repurchase agreement is deemed to be the period remaining until the date on which the repurchase of the underlying securities is scheduled to occur or, where the agreement is subject to demand, the notice period applicable to a demand for the repurchase of the securities.
- D. A Money Market Mutual Fund's maturity date is deemed to be the shorter of (i) the period remaining until the money market mutual fund is required to make payment upon redemption or (ii) if the money market mutual fund has agreed in writing to provide redemption proceeds to the investor within a shorter time period, such shorter time period.

Liquidity Requirements

The FEITF Portfolio will not acquire any security other than: cash; direct obligations of the U.S. Government; or securities that will mature or are subject to a demand feature which is exercisable and payable within one business day (collectively, "Daily Liquid Assets") if, immediately after acquisition, the Portfolio would have invested less than 10% of its total assets in Daily Liquid Assets.

The FEITF Portfolio will not acquire any security other than: cash; direct obligations of the U.S. Government; government securities that are issued by a person controlled or supervised by and acting as an instrumentality of the Government of the United States pursuant to authority granted by Congress of the United States that are issued at a discount to the principal amount to be repaid at maturity and have a remaining maturity of 60 days or less; or securities that will mature or are subject to a demand feature which is exercisable and payable within five business days (collectively, "Weekly Liquid Assets") if, immediately after acquisition, the FEITF Portfolio would have invested less than 25% of its total assets in Weekly Liquid Assets.

The FEITF Portfolio may not invest more than 5% of net assets in illiquid investments. Illiquid investments are securities that cannot be sold or disposed of in the ordinary course of business at approximately the value ascribed to it by the FEITF Portfolio. Illiquid investments include:

- Restricted investments (those that, for legal reasons, cannot be freely sold).
- Fixed time deposits with a maturity of more than seven days that are subject to early withdrawal penalties.
- Any repurchase agreement maturing in more than seven days and not terminable at approximately the carrying value in the FEITF Portfolio before that time.
- Other investments that are not readily marketable at approximately the carrying value in the FEITF Portfolio.

If the 5% limitation on investing in illiquid securities is adhered to at the time of investment, but later increases beyond 5% resulting from a change in the values of the FEITF Portfolio's securities or total assets, the FEITF Portfolio shall then bring the percentage of illiquid investments back into conformity as soon as practicably possible. The Fund believes that these liquidity requirements are reasonable and appropriate to assure that the securities in which the Fund invests are sufficiently liquid to meet reasonably foreseeable redemptions of shares.

Information Specific to the FEITF Term Portfolio

Rating

The FEITF Term Portfolio will be managed to ensure that it will meet all the necessary requirements to maintain a AAAf rating or equivalent by S&P. S&P fund ratings are based on analysis of credit quality, market price exposure and management. According to Standard & Poor's rating criteria, the AAAf rating signifies that a portfolio's holdings provide extremely strong protection against losses from credit defaults. However, it should be understood that these ratings are not "market" ratings or a recommendation to buy, hold or sell the securities.

Maturity

The FEITF Term Portfolio is a fixed-term investment portfolio of the Fund with a maturity of up to one year, depending on the termination date of any particular series within the FEITF Term Portfolio.

Valuation of Shares

The redemption value per share for a series of the Portfolio will be determined as of the close of business on the day when redemptions are made and upon termination of the series. The redemption value per share on the termination date of a series is equal to the original purchase price for such share, plus dividends thereon, at the projected yield less such share's allocation of any losses incurred by the series (other than losses resulting from Premature Redemptions of shares of the series). The redemption value per share for shares being redeemed on a Premature Redemption Date is equal to the original price for such share, plus dividends thereon, at the projected yield less such share's allocation of any losses incurred by the series, less a Premature Redemption penalty, if any.

The redemption value per share for shares being redeemed on a Planned Early Redemption Date is equal to the original purchase price for such share, plus dividends thereon, at the projected yield less such share's allocation of any losses incurred by the series (other than losses resulting from Premature Redemptions of shares of the series). The Premature Redemption penalty will be calculated by the Investment Adviser and will be equal to (i) all penalty charges, losses and other costs (including, without limitation, interest paid on funds borrowed to pay the redemption) associated with amending, terminating, selling or otherwise affecting any of the investments in the series in order to pay the Premature Redemption plus (ii) an amount sufficient to maintain the projected yield on the remaining shares to the stated termination date for the series or to the Planned Early Redemption Date, as the case may be, less any losses affecting projected yield attributable to such shares. Thus, a Premature Redemption of shares may result in a penalty which could reduce the return and the principal value of the investment in amounts not ascertainable at the time the shares are issued. The redemption value per share could be lower than the purchase price of the share, and the return could be lower than the projected yield quoted at the time of issuance of the share.

Each FEITF Term series provides for a fixed-rate, fixed-term investment by Participants, but the market value of the underlying assets will, prior to their maturity, tend to fluctuate inversely with the direction of interest rates. It is the intent of the Portfolio to manage each of its series in a manner that produces a share price of at least \$1.00 on the termination date for the Participant that redeems on said date.

ADDITIONAL INFORMATION ABOUT THE FUND

For More Information

We send each Participant annual reports containing independently audited financial statements for the Portfolios. We also provide monthly account summaries, which describe dividends declared and shares purchased through dividend reinvestment. Other individual account information is available upon request.
